Weather Key Points

Regional Operations Center

Western Region

Saturday, August 20

- One more day of hotter temperatures will bring locally high heat risk impacts across the Central Valley on Saturday, with somewhat cooler and more seasonable readings expected Sunday through much of the upcoming week
- Isolated showers and thunderstorms will be seen again across mainly southeast California Saturday, with mainly dry weather statewide Sunday and Monday. Additional scattered showers and storms will return to inland southern California and portions of the Sierra for the middle to latter portions of the week.
 - A few storms across far southeast California today could bring heavy rainfall and localized flash flooding
- Mountain and foothill winds will remain breezy most afternoons across the state through at least next Friday, bringing locally elevated fire weather conditions
 - Somewhat stronger and more widespread gusty conditions are expected across far northern California Sunday and Monday, though critical fire weather conditions are not currently expected
